

Congratulations on your purchase of a new hose end sprayer! Hose-end sprayers are great tools for spraying liquid garden products and combine the convenience of ready-to-use products with the coverage and savings of a chemical concentrate. With proper calibration you'll get great application results every time.

Q: How does a hose end sprayer work?

A: Hose-end sprayers use water that passes through the spray head on top of the bottle and shoots out the other end. As water moves through the top of the spray head, it creates suction that draws the liquid chemical in the tank up the tube to the top of the spray head. Most hose-end sprayers have a knob that allows you to close off the hole on the tube so you can spray water only if desired. The Chameleon Adjustable Hose End Sprayer has a dial on top to adjust the amount of product mixed with water at an exact rate (between 1 tsp - 8 oz per gallon).

The amount of product that is sprayed out on a lawn is determined by two key factors:
 1.) The sprayer hole size (oz per gal setting on the dial)
 2.) How many gallons of water is actually sprayed on the lawn during an application.

There is always some trial and error when using a hose-end sprayer for the first time.

This is because everyone walks at different speeds, sprays a wider or narrower swath (application on single pass), and has different water pressure in their home. With a few simple steps you can calibrate your sprayer to your unique spraying conditions and ensure accurate application of product each and every time.

Q: How do I calibrate my sprayer and properly apply the mixture?

1 Determine the total area to be sprayed. Walk heel-to-toe if necessary to measure length multiplied by width to get the area (sq. footage) of your yard.

2 Determine amount of product to use. Example: If your yard is 4,000 sq. ft and you want to apply at 4 oz per 1,000 sq. ft rate, you want to use 16 oz total on your lawn.

3 Attach your hose to sprayer. Fully turn on your water to highest pressure for best performance.

4 Set to recommended setting on the product label. Walk at slow/normal pace moving wrist side-to-side to spray 6-8 ft wide swath on lawn. Make sure all areas are wet on top.

5 As you spray, monitor how much of the product has been used. Example: If you have treated 2,000 sq. feet and you want to apply at 4 oz per 1,000 square feet, you should have used approximately 8 oz of the product.

If you have used too little, you need to walk at a slower pace when spraying and/or spray a narrower swath. If you are using an adjustable sprayer you can simply increase the spray setting and walk exactly like you did the first time. Test another area, re-adjust as needed.

If you have used too much, you need to walk faster and/or spray a wider swath. If you are using an adjustable sprayer you can turn it down to a lower setting.

If nothing or very little has come out of the sprayer, check to see that the siphon tube is still connected. If there is a liter tip on the end of the tube, make sure it is not clogged.

Quick Connect Anti-Siphon valve in Swivel
Vivula de conexin rpida anti-sifn en el cabezal giratorio
Soupape antisiphonnage connexion rapide dans la tte pivotante

Instant on/off Trigger
Gatillo instantneo On/Off
Gchette darrt instantan

Can be used as a traditional hose end sprayer.
Se puede usar como rociador tradicional de extremo de manguera.
Sutilise comme un pulvisateur traditionnel.

Liquid dispensed through top hole only:

Stream for high places,
tough rinse jobs
Shower for delicate ora
Flat fan for large areas

El liquido se dispensa a travs del agujero superior solamente:

Flujo para lugares altos y trabajos de enjuague duros

Ducha para la ora delicada
Dispersor plano para reas grandes

Le liquide ne passe que par le trou suprieur :

Jet grand dbit pour atteindre les endroits levs et difficiles rincer

Jet de type averse pour les plantes dlicates
Jet en ventail pour les grandes surfaces

Precision metering system for accurate dilution of concentrate to water.
Sistema de graduacin de precisin para la dilucin precisa del concentrado a agua.
Systme de mesure prcis pour obtenir une dilution exacte du produit concentr dans leau.

HOW TO USE CMO UTILIZAR UTILISATION

The faster, easier, cleaner sprayer. The Chameleon keeps your hand chemical free. Three steps with no pouring, measuring or mixing:

1. Attach Chameleon to hose and adapt to t desired bottle or canister. Use yellow adapter ring for smaller mouth bottles, or remove entirely for large bottles. Fits Bayer, Spectracide and Ortho bottles. Contact chemical manufacturer for questions about proper settings.
2. Adjust dial concentration. **RATE DILUTION is per gallon of water.** Adjust spray head for ow--shower, at fan, stream.
3. Point, squeeze and hold trigger, and spray with sweeping motion.

El rociador ms rpido, fcil y limpio Chameleon mantiene sus manos libres de productos qumicos. Tres pasos fciles, sin verter, medir ni mezclar: 1. Sujetar Chameleon a la manguera y adaptarlo a la botella o la lata deseada. Use el aro amarillo de adaptacin para botellas de boca ms pequea, o quite completamente para botellas ms grandes. Se adapta a botellas Bayer, Spectracide y Ortho.

2. Ajustar la concentracin en el cuadrante. Dilucin = galn de agua. Ajustar el cabezal de rociado para el ujo: ducha, dispersor plano, vapor.

3. Apuntar, apretar y sujetar el disparador, y rociar con movimiento de barrido.

Le pulvisateur qui offre la meilleure rapidit, facilit et propret sur le march. Le pulvisateur Chameleon protge vos mains des produits chimiques. Trois tapes nexigeant ni versement ni mesure ni mlange: 1. Fixez le Chameleon au tuyau et ajustez-le pour quil sadapte la bouteille ou au contenant voulu(e). Utilisez lanneau adaptateur jaune pour les bouteilles petit goulot, ou retirez compltement pour grandes bouteilles. Sadapte aux bouteilles de marque Bayer, Spectracide et Ortho.

2. Rglez le cadran de concentration. La dilution est pour gallon deau. Rglez la buse selon le jet voulu -- averse, ventail ou grand dbit.

3. Visez, serrez la poigne et tenez la gchette, puis pulvrissez en un mouvement de balayage.

CLEANING INSTRUCTIONS INSTRUCCIONES DE LIMPIEZA INSTRUCTIONS POUR LE NETTOYAGE

A properly cleaned sprayer will give you many years of use.

You must clean the sprayer after each use. Follows these instructions no matter how you adapt the sprayer for use:

1. Properly store any unused chemical concentrate or solutions.
2. Fill the canister/bottle with water and attach to the sprayer cap.
3. Put the dial on all the settings you used and thoroughly ush each setting.

Para que sus rociador dure muchos aos mantngalo siempre limpio. Usted debe limpiar el rociador despues de cada uso. Siga estas instrucciones sin importar cmo usted adapte el rociador para el uso: 1. Guarde debidamente las soluciones y los concentrados qumicos sin uso. 2. Llene el recipiente/ botella con agua y conecte a la tapa del rociador. 3. Ponga el cuadrante en todas las posiciones que us y lave bien cada posicin con descarga de agua.

Si vous entretenez votre pulvisateur adquatement, vous pourrez lutiliser pendant de nombreuses annes. Vous devez nettoyer le pulvisateur aprs chaque utilisation. Suivez les directives suivantes quel que soit le type dutilisation choisi:

1. Entreposez de faon approprie tout produit chimique inutilis, tant en concentr qu'en solution.
2. Remplissez deau le contenant (ou la bouteille) et xez-le au bouchon du pulvisateur.
3. Rglez le cadran chacun des rglages et rincez abondamment avec chacun.

DANGER! PELIGRO! DANGER!

Warnings: This sprayer is designed to spray chemicals that may be harmful and could cause serious personal injury if inhaled or brought into contact with the user. Failure to read and follow Operation and Service Instructions before and/or misuse of this product could result in explosive failure with major injuries.

ALWAYS water test sprayer before each use. ALWAYS wear long sleeve shirts, long pants, goggles, gloves, and durable shoes.

FOR LIQUIDS ONLY. Do not mix wettable powders. ALWAYS READ AND FOLLOW label instructions for the chemical to be applied.

DO NOT alter the sprayer. DO NOT spray ammable, caustic (i.e. acids, chlorines and bleach), corrosive, heated or self-heating solutions in the sprayer. DO NOT store liquids in the sprayer.

Advertencia: Este rociador ha sido diseado para rociar productos quimicos que pueden ser nocivos y causar lesiones personales graves si se los inhala o pone en contacto con el usuario. Si no se leen y siguen las Instrucciones de uso y servicio antes y/o se usa incorrectamente este producto, podra producirse una falla explosiva con lesiones graves.

SIEMPRE pruebe el rociador con agua antes de cada uso.

SIEMPRE use camisas de manga larga, pantalones largos, anteojos de proteccion, guantes y zapatos resistentes. LEA Y SIGA SIEMPRE las instrucciones que aparecen en el rtulo para el producto quimico que se aplicar. NO altere el rociador. Solamente para los liquidos. No mezcle los polvos mojables. NO roce soluciones inamables, custicas (cidos, cloros y leja), corrosivas, calentadas o autocalentadas en el rociador. NO almacene liquidos en el rociador.

Avertissements: Ce pulvrisateur est conu pour la pulvrisation de produits chimiques qui peuvent tre nocifs et causer des blessures personnelles graves sils sont inhals ou entrent en contact avec la peau de lutilisateur. Vous devez lire les directives utilisation et de service avant de vous servir du produit et vous devez vous conformer celles-ci. Une mauvaise utilisation pourrait entrainer une explosion ou des blessures graves.

TOUJOURS faire un test avec de leau avant chaque utilisation. TOUJOURS porter une chemise manches longues, des pantalons longs, des lunettes de securit et des chaussures durables. TOUJOURS LIRE ET SUIVRE les instructions sur litiqette des produits chimiques.

NE PAS modifier le pulvrisateur. Seulement pour des liquides. Ne mlangez pas les poudres mouillables. NE PAS appliquer de produits inammables, caustiques (acides, chlorures et agents de blanchiment), corrosifs, chauffs ou autochauffants laide de ce pulvrisateur. NE PAS conserver de liquide dans le pulvrisateur.

LIMITED WARRANTY GARANTA LIMITADA GARANTIE LIMITE

H. D. Hudson Manufacturing Company warrants to the original purchaser only that this product will continue to function as intended if used in accordance with operating instructions (under NORMAL CONSUMER USE) for ve years. If the product fails to function as intended DO NOT RETURN IT TO THE STORE call our CONSUMER SERVICE HOTLINE AT 1-800-9-SPRAYER (toll free) for fast service. We will, at our option, repair or replace any non-functioning parts without charge (shipping and handling charges will apply). H. D.
